Government of Bombay,
Bombay Castle, BOMBAY1.

Subject: Disposal of Surplus Stores -- Order of Priority.

Sir,

With reference to your letter No. 1448/48/89992-CON dated the 16th January, 1950, I have the honour to say that this office Memo. No. DGD/CDN/101/(16)VOL.II dated the 28th May 1949, embodies the final decisions of the Government of India on the subject of priority allocation. I may, however, point out that the Priority List issued with this office Memo. referred to above has an element of elasticity and a higher priority may, in the discretion of the Director General of Disposals or the Ministry of Industry and Supply, be accorded to the specially important needs of an indentor in the lower priority group over the needs of a n indentor in a higher priority group, if the circumstances justify such a course. Perusal of Para 3 of this office Memo. of 27th MAY, 1949 and Footnotes 1 and 2 appended assignment of a [illegible] is clear. Thus the priority list is not of a major [illegible] ally important requirements and it is always open to him to make out a case for special allocation in preference to higher priority groups if the exigencies of the case so require.

In view of the forgoing, no apprehensions need be entertained that any really important requirements for projects referred to by you will be overlooked if care is.....

Subject: Disposal of Surplus Stores — Order of Priority.

Sir,

With reference to your letter No. 1448/48/89992-CON dated the 16th January, 1950, I have the honour to say that this office Memo. No. DGD/CDN/101/(16)VOL.II dated the 28th May 1949, embodies the final decisions of the Government of India on the subject of priority allocation. I may, however, point out that the Priority List issued with this office Memo. referred to above has an element of elasticity and a higher priority may, in the discretion of the Director General of Disposals or the Ministry of Industry and Supply, be accorded to the specially important needs of an indentor in the lower priority group over the needs of a n indentor in a higher priority group, if the circumstances justify such a course. Perusal of Para 3 of this office Memo. of 27th MAY, 1949 and Footnotes 1 and 2 appended to the Priority List will make this clear. Thus the assignment of a particular place to an indentor in the priority list is not of a major consequence for specially important requirements and it is always open to him to make out a case for special allocation in preference to higher priority groups if the exigencies of the case so require.

In view of the forgoing, no apprehensions need be entertained that any really important requirements for projects referred to by you will be overlooked if care

is.....

is taken in the indents to explain the special importance of the Projects for which the sotres are required.

We should also however like to know which of your indents for surplus stores have not been honoured. Please furnish a detailed list of such indents, giving Nos. and Dates of Indents, by whom placed, stores indented for and D.G.D. Sales Offices to whom indents were sent so that the matter may be looked into

Office of the Superintending Engineer, Karnatak Irrigation Circle, Dharwar.
14th May 1950

To

The Deputy Secretaty to Government,

Public Works Department,

Bombay-1.

Subject: Disposal of Surplus Stores -

Order of Priority.

Reference: Government Endorsement, P.W.D. No. 1484/48-Con, dated the 8th February 1950 and expeditor dated the 28th April 1950.

2. The following statements are enclosed herewith

(i) List of indents not honoured;

(ii) List of indents still pending release;

(iii) List of indents which have been partly honoured.

3. All the stores indented by this office are required urgently for the 'Food and Fodder Scheme' under construction, viz. the Ghataprabha Left Bank Canal. The Scheme was started in June 1949 and is expected to start irrigation in areas in head reaches in 1951 June, as the weir already exists. But this is possible only if the necessary implements and machine tools are released by the Director from Disposals.

4. It is, therefore, requested that the high priority of this Food & Fodder Scheme and the necessity of immediate release of the surplus stores to enable irrigation to be started as from June 1951, be impressed on the Director of Disposals and the Ministry of Industry & S Supply and they be requested to supply all the stores indented by this office.
